## **ANNEXURE-I**

### **STATEMENT SHOWING THE ARTICLE OF CHARGES FRAMED AGAINST SRI P.G.ALEXIS, FORMERLY ASSISTANT EXECUTIVE ENGINEER, RWS&S, PEDDAVOORA OF NALGONDA DISTRICT.**

#### **CHARGE - I:**

That Sri P.G.Alexis, formerly Assistant Executive Engineer, RWS&S, Pedavooru and in charge of the project has recorded fraudulent measurements in laying of D.I. Pipes in execution of CPWS Scheme in Muppam of Nidamanoor Mandal & others caring with the executive agency and caused loss to the Government exchequer over to a tune of Rs. 18,82,156/-

#### **BASIS:**

Sri P.G.Alexis worked as AEE, RWS, Pedavooru w.e.f. 1.7.1998 to 13.1.2011 in charge of the Project. During his tenure he was executed the work "CPWS Scheme in Muppam of Nidamanoor Mandal". He has recorded the measurements of supply laying & jointing of D.I. Pipe line with a length of 1799.50 vide page No 38 of M.B. No. A/158/08-09. At the time of inspection by the CE, Vig.& QC the exact length of D.I. Pipe line found is only 1462.60m against the recorded measurement of 1799.50m. Thus he has measured excess measurement of 336.70m without actual execution and made excess payment to the executive agency an amount of Rs. 18,82,156/- irregularly. From this it is evident that he has colluded with the executive agency for unlawful gain and recorded excess measurements causing loss to the Government exchequer to a tune of Rs. 18,82,156/-. Hence he had violated the rule (3) of A.P. Civil Services (Conduct) Rules, 1964.

Hence the charge.

#### **CHARGE - II:**

That Sri P.G.Alexis, formerly Assistant Executive Engineer, RWS&S, Pedavooru, has tampered the measurements after check measurement and payment with a malafied intension.

#### **BASIS:**

Sri P.G.Alexis, AEE while executing the "CPWS Scheme Muppam of Nidamanoor Mandal" has tampered the measurements for supply laying and joining of D.I. Pipes vide pages 33, 35 to 39 of M.B. No. A/158/08-09 by striking of the line after the check measurement and making payment vide CC3rd and part bill vide page No. 24 and 28 of M.B.No. A/156/08-09. Further he has not mentioned the date on every recording which is mandatory. From this it is evident that he has tampered the recordings in the M.Book with a malafied intension and also violation of page 294 (c) (g) of APW'A' Code and G.P form No. 83 as affixed in M.B. vide para 2.

Hence the charge.

#### **CHARGE - III:**

That Sri P.G. Alexis, formerly AEE, RWS&S, Pedavooru has allowed substandard and defective execution of 500 KL sump at Muppam.

**P.T.O.**

**BASIS:**

Sri P.G.Alexis while working as AEE, RWS, Pedavoor and incharge of the Project work has executed the work 500KL sump at Mupparam for the CPWS Scheme at Mupparam of Nidamanoor Mandal. During the inspection of C.E, Vig.& QC, Hyderabad it is found that the sump constructed has been tilted by 0.30m and developed cracks. As per the approved design, the depth of water table below GL was considered as 5.0m. But as per the M. Book No. A/162/08-09 bailing out of water has been recorded along with earth work, PCC, steel fabrication and side wall casting up to 2.0 m height which confirms that water table had been met right from the ground level. Since water table is met from ground level due to up lift pressure the sump is tilted and developed cracks. Being a ground level Engineer while executing the work, the designs should have been checked due to uplift pressure before grounding and got revised the designs. But he has failed to do so, which resulted wasteful expenditure in construction of sump since the same has to be reconstructed. From this it is evident that he allowed substandard fraudulent execution of work with lack of supervision, negligence and misconduct.

Hence the charge.

**CHARGE - IV:**

That Sri P.G. Alexis, formerly AEE, RWS, Pedavoor and in-charge of the Project has committed irregularities in execution of the work Clarifloculator, Aerator and OHBR, to the CPWS Scheme in Mupparam of Nidamanoor Mandal.

**BASIS:**

Sri P.G. Alexis while working as AEE, RWS, Pedavoor in-charge for the execution of Clarifloculator, Aerator and OHBR to the CPWS Scheme in Mupparam of Nidamanoor Mandal. At the time of inspection by the C.E, Vig.& QC, Hyderabad it is observed that the Clarifloculator constructed is leaking at construction joints with heavy dampness due to faulty execution and poor workmanship. The Aerator height is found to be 14' and the height of the Aerator has not fixed to adjust the levels of other components with respect to the existing ground levels and taking into consideration the water level in the canal so as to flow water by gravity. He has failed to rectify the works such as removing all the dead mortar and filling honey combs and neat plastering inside and out side top to bottom in OHBR. It is evident that he allowed the substandard execution of works for the above items of work which resulted poor workmanship.

Hence the charge.
